AGENTS FOR T. SAKATA & CO., JAPAN

92 WARREN ST.

NEW YORK, N.Y.

Terms

This list cancels all previous offers.

Disclaimer: We give for ourselves or our Principals no warranty, express or implied, as to the description, quality or productiveness, or in any other respect for the seed we deliver, nor will we be responsible for the crop in any way. In no case shall we or our Principals be held liable for more than the invoice value of the seed sold.

Prices—are f.o.b. New York.

Weights—net, packing extra at cost.

Payment: Our prices are calculated on a strictly cash basis; customers remitting with their orders will be allowed 5% discount. No accounts opened under \$10. When remitting please add for postage and packing.

We do not sell quantities smaller than those indicated.

Seed of Oriental origin is offered for account of Messrs. T. Sakata & Co., Japan's Leading Seedsmen. As their representatives in the United States and Canada you will always find us prepared to quote and assist you in locating seed originating in the Far East.

Explanation of Signs

C.S. — Clean Seed

D.B. — Dried Berries

A REMARKABLE STRAIN

TRY THIS DELPHINIUM

We offer seed of a strain (BELLADONNA X WREXHAM), which produces 6-8 ft. plants with 2-3½ foot spikes of enormous 2-2½ in. blooms. In our mixture you will find a wide range of colors—blue, rich purple, mauve, orchid, rose pink, rosy magenta, sapphire and white and combinations of them.

PLANT VITALISERS

For lawns that have become excessively alkaline through the use of lime, spread Rhodono at the rate of 500 lbs. to 1,000 lbs. to the acre.

This product has been especially prepared for horticultural use in the treatment of Rhododendron Beds, to bring the soil into condition resembling that existing in the native habitat of this wonderful plant. Also for soil correction for the natural culture of all plants of the same family—Azaleas, Heaths, Kalmias, Andromedas, Clethra, Leucothoe, Oxydendron, Epigaea Repens, Vaccinium (Blueberry), Wintergreen, Huckleberry, Cranberry, Bilberry, etc., etc.

RHODONO should not be used indiscriminately but only on such plant-life as thrives in an acidified soil, as per above list.

HOW TO USE

Spread the product at the rate of 2 lbs. to each square yard of ground, or 2 tons to the acre. Distribute evenly and rake or fork in lightly. Repeat after six months and once yearly thereafter.

For Potting Soil mix very thoroughly half-pound to one pound to the cubic yard for Rhododendrons, Azaleas, Heaths, etc.

100 lbs. \$3.00

Ton, \$50.00

Prices on above net cash without discount. Packing free.

MOWRAH MEAL FOR WORM ERADICATION

Mowrah Meal, imported from India, is the most effective product for this purpose.

Directions

Outside it is used at the rate of 100 lbs. to each 200 sq. yds. of turf or soil surface. Spread in rainy weather or follow with the hose. The worms immediately come to the surface and die.

For Greenhouse use, put a little on the top of the soil of Potted Plants. Apply water and the same effect is produced.

100 lbs. \$2.75

Ton, \$49.00

SCOTCH SOOT. Scotch and English Gardeners were instrumental in the introduction of this product into the United States. It certainly gives intensity to color of flowers and foliage and possesses wonderful germicidal qualities, freeing the soil of slugs, grubs and cut-worms. The carbon is of high value, opening up the pores of the plants and allowing them to breathe. Gives that intense green color to a lawn and kills off soil insects.

100 lbs. \$3.45

Ton, \$65.00

Does not "force" the plants, but produces a natural, vigorous growth.

Ensures beautiful foliage and intensity of color in the blooms.

100 lbs. \$3.50

Ton, \$61.00

It can readily be realized that YANKEE-MUM MANURE being so wonderful in the development of Chrysanthemums, is naturally a product suitable

and marvelously effective in the raising of almost all Florists' Crops, and is fast becoming known as **The Plant Food for the Grower.**

Application for Chrysanthemums

Prepare the soil for potting by mixing into each bushel of soil about $\frac{3}{4}$ lb. of YANKEE-MUM MANURE. This ensures the plants thriving from the start.

ADEQUATE FEEDING of plants for best results is a necessity and top-dressings for this purpose should be at the rate of 7 to 10 lbs. of YANKEE-MUM MANURE for each 100 square feet of bench area.

The frequency of these applications can be safely left to the grower, who is best able to judge, in accordance with the condition of his stock.

YANKEE-MUM MANURE is excellent for ALL FLORISTS' CROPS

100 lbs. \$3.00

Ton, \$57.50

CLAY'S FERTILIZER. This Celebrated English Fertilizer has a world-wide reputation and is now largely used in this country by both Private and Commercial Growers.

28 lb. Bag, \$2.95

LAWN GRASS SEED MIXTURES

Prices net, subject to change, f.o.b. N. Y. 20 lb. bags 100 lb. bags
Prepared especially to meet the exacting requirements of the nurseryman and non-landscape architect.

H. B. Finest Select	\$6.60	\$32.00
An approved formula of Red Top, Blue Grass, Fescue and Bent Grass without Rye Grass or White Clover.		
H. B. High Grade	\$5.80	\$28.00
A fine mixture of Fescues, Red Top, Blue Grass and Rye Grass without White Clover.		
H. B. Landscape Special	\$4.30	\$22.00
A special mixture for landscape work where large areas are to be planted. The mixture consists of fine Grasses with sufficient domestic Rye and Timothy to insure quick growth and prevent unsightly erosion.		
H. B. Standard	\$3.80	\$18.00
Recommended for general work where a good tough permanent lawn is required. This mixture contains White Clover.		
H. B. Choice Shady	\$6.00	\$29.00
Contains a high percentage of Poa trivialis and Fescues blended with smaller quantities of Red Top and Blue Grass and fast growing domestic Rye Grass which insures a protective cover while the choicer sorts germinate.		
H. B. Regular Shady	\$5.00	\$24.00
We highly recommend this mixture. The formula contains all the ingredients of our "Choice Shady", but is so blended as to insure a somewhat quicker initial growth.
